This \$100 billion estimate is derived from studies conducted by a variety of tax experts. See, e.g., Joseph Guttentag and Reuven Avi-Yonah, "Closing the International Tax Gap," in Max B. Sawicky, ed., Bridging the Tax Gap: Addressing the Crisis in Federal Tax Administration (2006) (estimating offshore tax evasion by individuals at \$40-\$70 billion annually in lost U.S. tax revenues); Kimberly A. Clausing, "Multinational Firm Tax Avoidance and U.S. Government Revenue" (August 2007) (estimating corporate offshore transfer pricing abuses resulted in \$60 billion in lost U.S. tax revenues in 2004); John Zdanowics, "Who's watching our back door?" Business Accents magazine, Volume 1, No.1, Florida International University (Fall 2004) (estimating offshore corporate transfer pricing abuses resulted in \$53 billion in lost U.S. tax revenues in 2001); "The Price of Offshore," Tax Justice Network briefing paper (March 2005) (estimating that, worldwide, individuals have offshore assets totaling \$11.5 trillion, resulting in \$255 billion in annual lost tax revenues worldwide); "Governments and Multinational Corporations in the Race to the Bottom," Tax Notes (2/27/06); "Data Show Dramatic Shift of Profits to Tax Havens," Tax Notes (9/13/04). See also series of 2007 articles authored by Martin Sullivan in Tax Notes (estimating over \$1.5 trillion in hidden assets in four tax havens, Guernsey, Jersey, Isle of Man, and Switzerland, beneficially owned by nonresident individuals likely avoiding tax in their home jurisdictions), infra footnote 3.
